

Aayuphile go to Market strategy

Aayuphile – inclusive healthcare access platform for India (especially rural areas).

It connects **patients, local clinics, telemedicine providers, and diagnostic vendors** through a digital ecosystem

A GTM Plan :

- **How Aayuphile will reach users (patients, clinics, vendors)**
- **How it will create awareness and trust**
- **How it will convert adoption into revenue**

Aayuphile Go-To-Market Framework (Structure)

We'll build it in 7 clear sections:

- **Market Segmentation**
- **Target Audience**
- **Value Proposition**
- **Marketing & Sales Channels**
- **Pricing & Revenue Model**
- **Launch Plan (Phases & Timeline)**
- **KPIs & Feedback Loop**

Market Segmentation :

Segment	Description	Pain Point
Rural Patients	Individuals lacking access to quality healthcare	No nearby doctors, long travel times
Local Clinics & Pharmacies	Small clinics struggling with low visibility	Need digital presence, patient flow
Telemedicine Providers	Doctors offering online consultations	Need verified patient base
Vendors / Suppliers	Medical device suppliers	Need verified buyers (clinics)

Target Audience (Initial Focus)

Phase 1:

Rural patients in Tier 3–4 towns

Starting with Andhra Pradesh, Telangana, Karnataka

Phase 2:

Local Clinics & Diagnostic Labs

- Small clinics needing digital appointment systems
- Labs requiring digital booking + report uploads
- Build local credibility and expand service delivery

ASHA Workers / Community Health Volunteers

- Grassroots connectors helping reach rural households

Pharmacies (Future Integration)

- Enable prescription pickup and chronic care support

Phase 3:

Integrate verified teleconsultation doctors and health vendors.

- Device suppliers, wellness partners, insurance providers

Value Proposition :

Stakeholder:

Value Delivered:

Patients

Affordable, verified healthcare access
via app and SMS

Clinics / Pharmacies

Increased patient inflow, digital
visibility

Doctors / Vendors

Verified customer base, automated
onboarding

Government / NGOs

Data-driven insights for health
policy

Marketing & Sales Channels :

Channel Type	Tactics
Digital (Urban Awareness)	Social media campaigns (Meta, Google), regional language content
Offline (Rural Penetration)	Health camps, school awareness drives, partnerships with ASHA workers
Referral Programs	Incentivize doctors and pharmacies for onboarding new patients
Partnerships	Tie-ups with diagnostic labs, NGOs, and CSR programs (like Apollo Foundation, Tata Trusts)
PR & CSR Alignment	Showcase Aayuphile as a "HealthcareInclusion Initiative"

Pricing & Revenue Model :

Source	Description
Freemium for Patients	Free consultations up to 2 visits/month
Subscription for Clinics	₹499/month for premium listing & analytics
Commission on Vendor Transactions orders	5-10% on verified medical supply orders
CSR/NGO Partnerships	Data-sharing collaborations or sponsorships

Launch Plan :

Phase	Timeframe	Focus	Key Outcomes
Phase 1: Pilot Launch	Month 1-3	Launch in one district (e.g., Anantapur)	App + vendor onboarding + 1000 users
Phase 2: Scale to 3 States	Month 4-6	Regional expansion	10k users, 50+ clinics
Phase 3: Partners hips	Month 7-9	Tie-ups with labs, NGOs, health orgs	Brand credibility
Phase 4: Monetiz ation	Month 10-12	Premium listings, CSR funding	Sustainable revenue

KPIs & Feedback Loop :

KPI	Target	FeedbackSource
Active Users	10,000 (Year 1)	App analytics
Vendor Onboarded	100+	Vendor dashboard
Conversion Rate	20% free → paid clinics	CRM reports
Retention Rate	70% after 3 months	User feedback
Avg. Response Time	< 10 minutes	Support logs

Feedback & Iteration

Every quarter, use:

- **Surveys & feedback forms** (patients + vendors)
- **Dashboard metrics**
- **Workflows in Camunda** to track alert & process automation effectiveness
